🐾 It's time we had the talk about desexing your fur baby.

Every year, thousands of unexpected litters are born across Australia, placing pressure on pet owners, veterinary clinics, animal shelters and rescue groups.

National Desexing Month is a nationwide awareness campaign encouraging pet owners to consider desexing before the spring breeding season.

Throughout July, participating veterinary clinics across Australia will be offering special desexing promotions and discounted services to help make desexing more accessible.

Desexing can help prevent unwanted litters, avoid unplanned pregnancies and provide long-term benefits for pets, owners and the wider community.

If you've been thinking about desexing your pet, now is the perfect time to start the conversation with your veterinarian.
